

CFN Changes to Local Rules and Course Markings

February 4, 2019

General

1. Throughout the course for general play (CFN will decide if applicable for certain tournaments) a player may use **Local Rule 8E-5** for any ball that goes out of bounds (OB) or is lost on the course. Here is the USGA model language for this local rule:
 - When a player's ball has not been found OR it is known or virtually certain to be out of bounds, the player has an additional relief option other than stroke and distance relief: **For two penalty strokes**, the player may take relief by dropping the original ball (or another ball) in a relief area. This is how you establish the relief area for this option.
 - Two estimated reference points;
 - **Ball Reference Point** – The point where the original ball is estimated to have:
 - Come to rest on the course (where lost), or
 - Last crossed the edge of the course boundary to go out of bounds.
 - **Fairway Reference Point** – The point of the fairway of the hole being played that is nearest to the ball reference point, but not nearer the hole.
 - Size of Relief Area
 - A line from the hole through the ball reference point, and
 - A line from the hole to the fairway reference point (and within two club lengths to the fairway side of that line).
 - Limits on Location of Relief Area
 - Must be in the General Area
 - No nearer the hole than the ball reference point
 - Once player drops ball in relief area – original ball is no longer in play.
 - Other Limitations
 - Cannot use this option if original ball is in a penalty area
 - Cannot use this option if original ball found but unplayable
 - Cannot use this option if player decides to hit a provisional ball.
2. The current local rule for out of bounds relief (similar to lateral hazard relief rule) is eliminated.

Hole 1

- **Red Penalty Area** – left and right of tees up to the Yellow Penalty Area/No Play Zone
